

# How to use the new DVR video player from El Shaddai Ministries Live Streaming Service

*This is a fully functional DVR player. You can pause and restart at any time during the live broadcast and not miss anything. You can “rewind” the player and repeat any portion of the video at will. Use these tools to control the DVR player.*

- 1: Pause/play button*
- 2: Position/scroll bar showing player position at all time during broadcast.*
- 3: Playback position indicator. When in live mode, this indicator is always at the far right. Use it to rewind the player by dragging it to the left to the desired playback position.*
- 4: DVR/LIVE indicator/switch. When in live mode, it is as shown above. In DVR mode this indicator reads “LIVE.” Clicking on it will return the player to the live broadcast .*
- 5: This is a playback video quality indicator/selector. If your video playback is slow or skipping, try reducing the video quality.*
- 6: Audio on/mute indicator/switch. The player normally starts with the audio muted, indicated by the small “x” next to the speaker icon. Click on the icon to turn on the audio.*
- 7: Switch for full screen mode.*
- 8: Mode indicator, LIVE or DVR*
